ABOUT ME

I am a Senior React Developer / Engineer / Contractor/ Freelancer with **3+ years of experience**, only interested in remote work.

I am a passionate and creative team player with an attention to detail and an eye for beautifully crafted and performant applications. I am always eager to learn new technologies and take on new challenges.

Let's discuss if you think my expertise could help your organization

MOST RELEVANT WORK EXPERIENCE

Senior Vue.js Front-End Engineer
Apr 2022 - Present

Energy Management Platform | Cognizant Softvision

The client, a US leading electricity provider, was struggling to scale and extend a platform used for energy bills management due to poor technical implementation and the limitations of an old technology stack.

- **Boosted the platform performance by over 55%** by migrating the application to the most modern technology stack and redesigning a more efficient implementation.

- **Reduced future scaling costs by 40%** by merging 2 separate applications into a stable, and highly-performant unified platform using a state-of-the-art modular architecture.

Skills: JavaScript, Typescript, Vue.js, VueX, Vue Router, ElementUI, Quasar, CSS, Sass, HTML, pug, npm, ChromeDevTools, git, GitHub, JIRA, Confluence

Senior Javascript Full-Stack Developer
Jul 2019 - Mar 2022

BytesRoute | Caphyon

The client, an established SaaS developer from Romania, was struggling to expand its business and add a 3rd successful product to its lineup, due to lacking a group of people with the vision, skill, and drive to start and see such a project finalized.

- **Achieved 100% success in developing** a highly-performant and rock-solid platform using a modern technology stack that aided non-technical users in creating onboarding experiences on product websites for their clients.

- **Generated 10K+ unique visitors** and 150+ happy users by successfully launching over 12 releases, containing more than 14 unique features over the course of 2 years by tightly collaborating with a team of professional engineers and designers.

Skills: Javascript, Vue.js, VueX, VueRouter, Pug, Stylus, Bootstrap, Node.js, MongoDB, Vue-Test-Utils, Puppeteer.js, npm, Heroku, ChromeAPI, GitLab, git

Senior React Full-Stack Developer
Dec 2021 - June 2022

Art Social Media | Freelancing

The client, a visionary entrepreneur, was aiming to create a social media platform for online drawings but was struggling to do so due to lacking technical skills and lacking a professional engineer to aid him in the ideation process.

- **Achieved 100% success in designing a highly-efficient application** by creating a modern web application that uses state-of-the-art technology and contains many well-known social media features for creative users.

Skills: React.js, ReactRouter, ReactHooks, MaterialUI, Javascript, CanvasAPI, Hotjar, git, GitHub
